

# PRO 16

Fresh thinking in sanitisation

Producing 16g/hr of ozone, the Pro 16 is suitable for sanitisation and large odour problems.

The Pro 16 is a modular system which can evolve to meet individual needs; an extra destruct unit can be added to speed up the treatment time.

This system is operated by an HMI touch screen and can be programmed for different languages.

## Applications

- Care homes
- Fire damaged areas
- Schools
- Factories
- Hotels
- Dairies
- Hostels
- Flood damaged areas
- Vacant properties
- Hospitals
- Smoking areas
- Large conference rooms

## Benefits

- Uses no chemicals
- Leaves no residues
- Low maintenance
- No filters

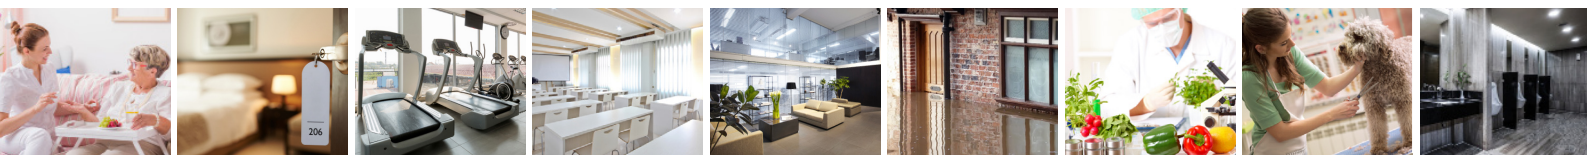

## Features

- Remote control operation, restricted access using 4 digit PIN
- Ultra fast treatment cycles
- Fully time programmable
- Switch to ozone destruct mode remotely at any time using the emergency stop feature
- Multi mode operation: Basic, Advanced and Unique. Destruct-only programme cycle
- Customised safety settings & inbuilt diagnostics
- Customisable destruct, connect up to four modular destruct units at once
- 16g/hr ozone output
- Ozone generator dimensions and weight: 315mm x 400mm x 330mm, 9.35 kg
- Ozone destruct unit dimensions and weight: 450mm x 450mm x 200mm, 8.5 kg
- HMI dimensions and weight: 190mm x 110mm x 60mm, 0.4kg
